DIGNATEL BUSINESS SOLUTIONS

HEALTHCARE I.T. SERVICES & CONSULTING

COMBINING I.T. AND HIPAA EXPERTISE TO PROPEL PATIENT CARE

HEALTHCARE I.T. ISN'T EASY - BUT IT CAN BE BETTER

Technology plays a crucial role in healthcare services, but too often vendor integration challenges, outages, and implementation hurdles negate the promised efficiencies and benefits. Patient wait time increases, the bottom line suffers, and fingers point in different directions.

CAPABILITY & CREDENTIALS

We speak CERNER, EPIC, McKesson Interface Systems, PACS, Diagnostic Imaging, DICOM, Oncology Software, HIMS, EHR Systems, Proprietary Biomedical Systems ***LE3 input***

HIPAA COMPLIANCE & OPERATIONAL NEEDS

Balance is Key

Non-compliance is not an option, but compliance initiatives can be daunting. Policies that don't fit the organization may be unachievable or at odds with daily operations.
With a foundation of well-fitting policies, I.T. practices and technical deployments serve to strengthen compliance and reduce risk.

WE COLLAB WITH YOUR I.T. PROFESSIONALS

Our specific OEM medical product and regulatory expertise complements your team

We bring over a century of combined experience in I.T., FDA regulatory, and HIPAA compliance.

- ☑ I.T. experience
- ☑ FDA compliance
- ☑ HIPAA compliance

Our experience, techniques, and strategies bridge the gap between I.T. professionals and medical devices

PHASED APPROACH

The path to success

We partner with you to create and implement practical solutions that are right-sized for your organization.

We favor developing small steps that lead to big solutions.

By collaborating with in-house I.T., we help pave the way for ongoing success, efficiencies, and benefits that result from a smooth-running I.T. infrastructure.
